

A letter written by Sally Knight Palmer to Lovina Palmer Munro, her sister-in-law. No date, but would be after Zemira had died on 22 Oct. 1880.

Dear Sister Lovina, I thought I would write a few lines to you. I would like to see you & talk with you. It has been a long time since we seen any of you folks. Emily, Munro's sister lives close by me, she would like to know where William lives. She cant find them to write to them. I enjoy myself the best kind since in living in the order here we have plenty of work to do, but I do not have the care of providing food and clothes for the children and every little thing we need. It is true we have to do without some things we would like to have, but we have the most substantial things and when we have enough and good people to live with & to guide us. and we feel that they are doing the best they know how and are praying & trying to be guided by the good spirit from day to day. I feel that we ought to be satisfied that is if we are living so that we are satisfied with ourselves then what more do we want. I have good health the most of the time, but not very stout to do hard work. My work is in the straw business. I feel thankful every day that my children are here where they can be taught the principles of the gospel and mormonism. Write often and tell us how your folks get along, Goodby for this time, Sally Palmer."
